

## About Us

Our mission is to help elect local leaders who respect and understand the decisions police officers are forced to make each day, and will fight for their rights and ensure that police officers are receiving the support, tools, training, and compensation they need and deserve so they can remain safe as they protect us.

Our vision is to fight for those who protect our nation's citizens. We will ensure that police officers maintain their benefits such as retirement pensions and protect their rights from government and politicians that are blatantly anti-police. We will work to ensure that our officers have the best local leadership possible. This means that we will work to defend strong police leadership and interests in our nation's cities and work to elect officials who will stand up for our police force.

American Police Officers Alliance is a tax-exempt political organization, organized under Section 527 with the IRS. Contributions to American Police Officers Alliance are not tax-deductible.
